EXPERIENCE

Dexmate / Senior Product Designer

Sep 2026–Present · Fremont, CA

Building 0→1 products and end-to-end experiences for **robotics** across web, mobile, and physical interfaces, spanning traditional and agentic interactions.

PayPal / Senior UX Designer

Aug 2019–Sep 2024 · San Jose, CA

Led end-to-end design as the sole product designer for **social P2P payments**, from early concepts through launch and iteration.

Shipped **group payments**, emojis, themes, reactions, quick replies, and **messaging** in the PayPal app.

Partnered with product, engineering, data science, legal, privacy, and risk teams to deliver scalable payment experiences.

SAP / User Experience Design Specialist

Jun 2016–Jul 2019 · Palo Alto, CA

Designed and shipped the early **SAP CoPilot digital assistant** for web and iOS, enabling task completion and insight discovery through conversational and multimodal interfaces.

Led research and design for SAP's **conversational UI design system**, defining interaction models, principles, and reusable patterns.

Contributed to the **Fiori for iOS design system** in collaboration with Apple, creating and validating reusable design guidelines for native enterprise experiences.

Award: SAP Catalyst; Hasso Plattner Founders' Award, Top 3 finalist

Razorfish / UX Design Intern

Jun 2015–Aug 2015 · Chicago, IL

Supported e-commerce UX through research, wireframing, and interaction design.
